Hello, Nancy. None of us were there. The RA was briefed on the site and related concerns before going down there. Any outreach activity near the site area needs to be closely connected to the Communication Plan we have been discussing. But this will be needed at some point, along with the signs, etc. A timely item for one of the calls with HCAO.
Thanks.

Donn, is there a need for any Health Dept Staff to be available during the EPA visit to Houston about this site?

Also, would it interfere with any other activities if DSHS staff were to take another trip to the area to visit with businesses and leave pamphlets like we did in October? We are considering another trip.
